Safety and Technology**

Alexandria Transit Company

Safety and Technology

- Digital Video Cameras. Well suited for capturing transportation incidents and accidents.
- Dependability for evidence in court.
- The GPS to this system provides location and speed of the bus. Other indicators also provided are breaking, turn signals, 4-way flashers, as well as frame by frame playback with on Screen mapping.
- Wi-Fi Wireless capable with software that permits Automated Data Download for viewing 3 weeks data
- Eliminates the unknown or conflicting stories of most accidents.

“Refresher Training”

- Identifies Dangerous Driving Behaviors:
 - High Speed Turns
 - Hard Braking & Tailgating
 - Speeding & Rapid Accelerations
 - Impact to Vehicle, Object or Crash
 - Distracted Driving
 - Erratic Lane Changes & Inability to Maintain Lane
